

Méthode d'accès aux données

Extracted schema: `mflix-sample`

Prof. Nastaran Fatemi

Christopher Meier

Edward Ransome

This document presents the collections and their property that are used in lab 1. They are extracted from the inferred schema of the `mflix-sample` using the Couchbase 'INFER' command. To simplify comprehension we represent them in the TypeScript format.

- Attributes that can be missing are represented by '?'
- Arrays are represented by appending '[]' to the element's type

For example:

```
{
  optionalAttr?: number // an attribute that can be missing (but not null)
  nullableAttr: null | boolean // an attribute that can be null or a boolean (but not missing)
  arrayOfStrings: string[]; // an array with String elements e.g. [], ["first", "second", ...], ...
  arrayOfObjects: {
    objAttr: number;
  }[] // an array with object of a specific structure e.g. [], [{objAttr: 1}, {objAttr: 2.2}, ...], ...
}
```

Collection comments

```
let comments_collection: [ // `mflix-sample`.`_default`.`comments`
  string, // key, e.g. "comment:5a9427648b0beebeb69579cc", "5a9427648b0beebeb69579d5", ...
  {
    _id: string; // key, e.g. "5a9427648b0beebeb69579cc", "5a9427648b0beebeb69579d5", ...
    date: number; // e.g. 420323955000, 539915376000, ...
    email: string; // e.g. "aidan_gillen@gameofthron.es", "greg_powell@fakegmail.com", ...
    movie_id: string; // e.g. "573a1390f29313caabcd4137", "573a1390f29313caabcd4218", ...
    name: string; // e.g. "Andrea Le", "Petyr Baelish", ...
    text: string; // e.g. "Quasi dicta culpa asperiores q...", "Tenetur dolorum molestiae ea. ...", ...
    type: string; // only "comment"
  }
]
```

Collection movies

```
let movies_collection: [ // `mflix-sample`.`_default`.`movies`
  string, // key, e.g. "movie:573a1392f29313caabcd99a3", "movie:573a1396f29313caabce41aa", ...
  {
    _id: string; // e.g. "573a1392f29313caabcd99a3", "573a1396f29313caabce41aa", ...
    awards: {
      nominations: number; // e.g. 0, 1, 2, 3, 4, ...
      text: string; // e.g. "Nominated for 1 Golden Globe. ...", "2 wins & 1 nomination.", ...
      wins: number; // e.g. 0, 1, 2, 11, ...
    }
    cast?: string[]; // minItems 1, e.g. ["Aleksandr Demyanenko", "Aleksei Smirnov", "Vladimir Basov"], ...
    countries?: string[]; // minItems 1, e.g. ["Germany"], ["Soviet Union"], ["West Germany"]
    directors?: string[]; // minItems 1, e.g. ["Carol Reed"], ["Leni Riefenstahl", "Bèla Balázs"], ...
